New York. September 26.—The stock market to-day gave signs of more life, and took on a semblance of breadth and strength. The increased congestion of the dealings in Reading, as the day progressed, lessened the appearance of breadth and restored that of narrow professionalism, which has been the fault of the market for some time past. Sales of Reading made up over 40 per cent. of the day's aggregate transactions.

The stress laid by the current sneculation on the question of raising freight rates was exemplified arain by the influence of the reported action of railroad abor organizations to further the requests of the railroads of the influence of the reported action of railroad labor organizations to further the requests of the railroads employes as a body and for of the proposed intenses of the railroad employes as a body and for of the proposed intenses of the subject. Another influence connected with this topic was the pains taken by Commissioner Lane to review his remarks in the railroad rate hearing on the subject of increases of freight charges. This was taken as intended to deprecate the construction placed on those remarks in the steel market last week, which made them placed the commissioner definitely in opposition to the demands of the railroads which are the subject of the inquiry. London joined in the buying on a liberal scale and there was a substantial demand also from uncovered shorts.

The conspicuous strength of Reading at first was made an argument in favor of the general advance, but later became the grounds for some doubt and hesitation ever the general movement. The news regarding the stock was confined to surnises over the identity of the large buyers, these poluting to various well-known operators of the first magnitude in specularity of the same time so of the first magnitude in specularity of the stock was confined to surnises over the identity of the large buyers, these poluting to the stock was and progress, calculated to sustain estimates of higher value for the shares, but present

COTTON MARKETS.

New York, September 26.—Buillsh private crop reports and task of smaller Southern spot offerings, together with apprehension of a possible early winter, based upon the appearance or killing frest in the Northwest, caused a more active demand for cotton in the local market, and while advices were not fully maintained the close was steady with September showing a gain of 1 point and later positions of 11@16 points for the day. The market opened firm with September unchanged and other months 41/6 points higher in response to a better Liverpoel market than expected and private tables reporting steadier spot offers from the South Spot houses bought September at the opening, and that position france up with the rest of the list, but soon reacted, ruling comparatively quet and easy during the balance of the day, while later months showed increasing activity and COTTON MARKETS.

Western interests were probably buyers on buillish crop news, as and to have received a large number of very buillish crop reports from the South, while some of the Wall Street interests may have been operating on a report from a local authority suggesting a crop of only 10.181. 100 bales, with average weather conditions from now on. Realizing checked the advance around 12.40 for October, and therewer slight reactions in the later trading with some selling nitributed to a private cable received late in the day from Liverpool to the effect that master spinners had refused to submit the Lancashire labor dispute to arbitration. The census figures on suppites and distribution, showing a stock in the hands of domestic mills of only dispute so the proposed services of the present season, comparing with 307,007 last year, were published before the opening, but proved near enough to expectations to exert no apparent influence on the days business. Virginia Trust Company

Virginia's Oldest and Strongest Trust Company Cash Capital, \$1,000,000.00

Readers of Trust Company journals during the past three months have been impressed with an unprecedented increase in the number of Trust Company appointments as Executor, Trustee and Guardian under the terms of wills made by men of wealth and large affairs.

Where desired, this Company will assist, through its counsel, in the difficult task of drawing a will, when named as Executor or Trustee. Interviews and correspondence, which are always confidential, are invited.

This company does not handle commercial business, but solicits inactive accounts from individuals, firms and corporations, upon which 3 per cent. interest is allowed on daily balances, and where the balance amounts to \$500.00 or more, the interest is credited at end of each month.
